

Dear Prospective Foster Parent(s):

Thank you very much for your inquiry into fostering in the Northern area. In the attached package you will find information developed by Erin Brule and the Foster Parent Support Services Society of Vancouver Island. This information has been reformatted by AXIS Family Resources Ltd. so that is relevant to this area. In this package you should find answers too many of your questions about fostering in our community.

In Terrace, Kitimat and surrounding areas there are many children in foster care who are in loving foster homes. We are extremely grateful to our foster parents for the caring work they do, but still we are in need of more homes.

If you are thinking about becoming a foster parent there are many different ways to become involved. There are different types and levels of foster care; such as becoming a full time foster parent, a respite/relief provider or a volunteer. Speak to a Resource Social Worker today, and find out if you and/or your family would be suitable.

After reading this package if you have additional questions, or are ready to take the next step, please call a Resource Social Worker at Ministry of Children and Family Development (250)638-2311 or AXIS Family Resources Ltd. at (250)635-6658 between 9 am and 4 pm Monday to Friday.

We hope you enjoy learning about foster care. Please take our challenge and find out how you could become part of a child or youth's life. You could help the future leaders of tomorrow by getting involved today.

Sincerely,

Connie Baker,
Resource Social Worker
